## Japan Science and Technology Agency

### ***GreyNet welcomes JST as a new Associate Member***

The Japan Science and Technology Agency aims to establish Japan as a nation built on the creativity of science and technology. JST is a core organization for implementing Japan's science and technology policy that renders an infrastructure for the entire process from the creation of knowledge to the return to the society. As the bases of such a process, JST also provides scientific and technical information, increases the understanding of science and technology, and promotes strategic international activities. The Mission of JST is to promote science and technology which will create new values and lead to the future, in order to advance the national welfare and prosperity. The Vision of JST is threefold: (1.)To help generate innovation based on science and technology, through the development of networks between academia and industry. (2.)To support development and activities of personnel who are to advance and deploy science and technology, while enhancing science communication between the public and S&T related professionals, and (3.)To advance science and technology for sustainable development, while playing a role in Japan's leadership in the S&T field in the face of global society. <http://www.ist.jp/EN/index.html>

## Korea Institute of Science and Technology Information

### ***GreyNet welcomes KISTI as a new Institutional Member***

The Korea Institute of Science and Technology Information is specialized in providing STI services to the public. KISTI promotes national competitiveness in science and technology and aims to be the leader of a science strong Korea. KISTI seeks to develop local and foreign information among which includes grey literature. <https://www.kisti.re.kr/english/index.jsp>

# Collections of Grey Literature on Showcase 'Slovak Centre of Scientific and Technical Information'

*Bratislava, 28 March – 1 April 2011*

During the Slovak Libraries Week 2011, a special exhibition of the CVTI SR collections of grey literature were showcased. A poster designed for the occasion highlighted aspects of this field of information, the typology of grey literature documents, as well as the work of GreyNet International to which CVTI SR is an Institutional Member. The team responsible for the exhibition and collection development are (left to right) Marta Dušková - Publication Evaluation Department, Ľudmila Hrkčková - Head of Electronic Information Resources and Publication Evaluation, and Mária

Žitňanská - Deputy Director of the Slovak Centre of Scientific and Technical Information. <http://www.cvtisr.sk>

## Workshop on Innovations in Scholarly Communication

*Geneva, 22-24 June 2011*

**INIST-CNRS and GreyNet to co-present a poster at OAI7**

### **Enhancing Open Access to Grey Literature: On the Launch of OpenGrey and GreyNet's Publications**

The OpenGrey Repository will become fully operational by mid-2011. OpenGrey succeeds OpenSIGLE, which was an initiative by INIST-CNRS to transfer the contents of a commercial database into an open access environment - including the results of 25 years of collecting and referencing grey literature by European partners. Since 2008, GreyNet's conference preprints complement the offer on grey literature in OpenSIGLE by providing full-text access to research output in this field of information science. OpenGrey not only signifies a change in platform but also provides improved features for users redesigned to meet the needs of a Google generation. OpenGrey moreover closes the gap caused by the termination of the SIGLE database by reopening the way for new record entry with links to full text. Coverage of new organizations in the OpenGrey platform and a broad based project involving GreyNet's enhanced publications in cooperation with INIST (France), DANS (Netherlands), and Pratt Institute (United States) are further integrated in the poster. <https://indico.cern.ch/conferenceTimeTable.py?confId=103325>

## **In Memoriam**

### **Dr. Maximilian Stempfhuber (1966-2011)**

It is with deep regret that we announce the passing of Dr. Maximilian Stempfhuber. To his family, friends, and colleagues we extend our sincere condolences. Max was involved in the grey literature community during his work as Head of the Department of Information and Communication Technology at RWTH Aachen University and during his previous position as Deputy Director GESIS, Social Science Information Centre (IZ) in Bonn, Germany.

## About GreyNet Newsletter

This serial publication endeavors to keep information professionals abreast of developments in the field of grey literature. The bimonthly newsletter gives exposure to GreyNet's information resources and frontline activities with special emphasis on the International Conference Series on Grey Literature. The GreyNet Newsletter is licensed by EBSCO Publishing and can also be accessed via the Library, Information Science & Technology Abstracts (LISTA) full-text database. This serial publication is made possible through the support of GreyNet's Associate Members and Corporate Authors: FLICC-FEDLINK of the Library of Congress (United States), INIST-CNRS (France), New York Academy of Medicine (United States), EBSCO Publishing (United States), National Technical Library (Czech Republic), and Japan Science and Technology Agency (JST).

**Grey Literature** is a field in library and Information science that deals with the production, distribution, and access to multiple document types produced on all levels of government, academics, business, and organization in electronic and print formats not controlled by commercial publishing i.e. where publishing is not the primary activity of the producing body.
