## GL2022 Conference Announcement

### Twenty-Fourth International Conference on Grey Literature Publishing Grey Literature in the Digital Century National Library of Medicine, USA • December 5-6, 2022

For over three decades, authors and researchers in the field of information have addressed the many challenges in publishing grey literature. In so doing, they have confronted core issues. Is grey literature published literature, and if so, how is it published; how does it differ from

commercially published literature; and foremost how can it stay abreast with the technological developments that will ensure its access, uses, and preservation for scholarly research and citizen science well into the 21st Century.

The response to such questions lies in the collaboration and integrated roles of publishing bodies and their affiliate libraries and information centers, where grey literature is produced and processed. While currentness is inherent to grey literature in that it is situated at the cutting edge of research, and while it is comprehensive in that it captures the corpus of both the research process and issuing results, grey literature publishing often lacks the financial resources and technical expertise afforded commercial publishers.

Due consideration should be given to shared workflows grounded in an understanding and commitment that production and publication constitute two integral parts in publishing today's digital grey literature. GL2022 will address the components of such shared workflows embedded in FAIR data principles and implemented by diverse communities of practice in this our digital Century.

## Twenty-Fourth International Conference on Grey Literature Publishing Grey Literature in the Digital Century

National Library of Medicine  
Lister Hill Auditorium, 5-6 December 2022  
Bethesda, Maryland USA

### Call for Papers

<b>Title of Paper:</b>	<b>Conference Topic(s):</b>
<b>Author Name(s):</b>	<b>Phone:</b>
<b>Organization(s):</b>	<b>Email:</b>
<b>Postal Address:</b>	<b>URL:</b>
<b>Postal Code – City – Country:</b>	

### Guidelines for Abstracts

Participants who seek to present a paper dealing with grey literature are invited to submit an English language abstract between 300-400 words. The abstract should address the problem/goal, the research method/procedure, an indication of costs related to the project, as well as the anticipated results of the research. The abstract should likewise include the title of the proposed paper, conference topic(s) most suited to the paper, name(s) of the author(s), and full address information. Abstracts are the only tangible source that allows the Program Committee to guarantee the content and balance in the conference program. Every effort should be made to reflect the content of your work in the abstract submitted. Abstracts not in compliance with the guidelines will be returned to the author for revision.

### Related Conference Topics

**e-Publishing** – AV-Portals, Blogs, Data Archives, Repositories, etc. **Digital Publications** – Clinical Trials, ETDS, Data Papers, Preprints, etc. **Research and Metadata** – Datasets, Databases, PIDS, DOI, ORCID, ROR-ID, etc. **Stakeholders and Policies** – Content and Service Providers, Authors and Researchers, OA, CC, FAIR, etc. **Communities of Practice** – Agriculture, Biomedicine, Economics, Fisheries, Physics, Library and Information, etc.

### Due Date and Format for Submission

Abstracts in MS Word must be emailed to [conference@textrelease.com](mailto:conference@textrelease.com) on or before March 31, 2022. The author will receive verification upon its receipt. Shortly after the Program Committee meets in April, the authors will be notified of their place on the conference program. This notice will be accompanied by further guidelines for submission of full text papers, biographical notes, accompanying research data, PowerPoint slides, and required Author Registration.

Data Archiving and Networked Services

DANS

50

Published Datasets

**GreyNet has 50 published datasets in DANS EASY Archive**

GreyNet’s Collection in DANS Easy data archive now accounts for fifty published datasets, twenty of which have accompanying data papers. The acquisition of datasets has become an integral part of GreyNet’s workflow. Every year, conference papers in the GL-Series that are based on empirical research data are selected and the authors/researchers are invited to submit their data in the DANS EASY archive. The authors/researchers can do this directly or GreyNet can do this on their behalf. Published datasets are on average up to three times more likely to be downloaded when they are accompanied by a data paper. GreyNet provides a template, which enables a standardized format and guarantees implementation of the FAIR data principles: findable, accessible, interoperable, and reusable. In 2020, research datasets issuing from other communities of practice in the field of grey literature have been included in GreyNet’s collection as well as their data papers. For further details, <mailto:info@greynet.org>

**Conference Proceedings**

**GL2021 Conference Proceedings • ISBN 978-90-77484-40-1**

Twenty-Third International Conference on Grey Literature “Digital Transformation of Grey Literature: Exploring Next Generation Grey”. - December 6, 2021 / compiled by D. Farace and J. Frantzen ; GreyNet International, Grey Literature Network Service. – Amsterdam : TextRelease, February 2022. – 132 p. – Author Index. – (GL Conference Series, ISSN 1386-2316 ; No. 23).

Among GreyNet’s Corporate Authors and Associate Members include: TIB (DE), CVTISR (SK), EBSCO (USA), ISTI-CNR (IT), KISTI (KR), NIS-IAEA (UN), NTK (CZ), NLM (USA), and the University of Florida (USA). These proceedings contain 12 full text conference papers presented during the plenary, panel, and poster sessions. Included is an author index with the names of contributing authors and researchers along with their biographical notes., ORCID, and ROR ID affiliation. A list of participating organizations as well as sponsored advertisements are likewise included.

<http://www.textrelease.com/proceedings/gl2021conference.html>

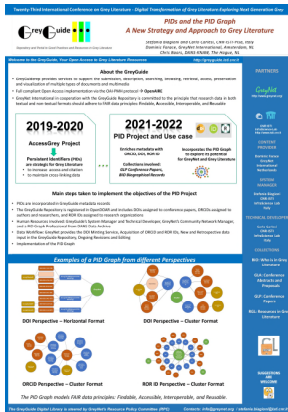

**IDGL 2022**

**International Directory of Organizations in Grey Literature**

This 2nd Edition of IDGL includes the organization’s URL (Uniform Resource Locator) and its ROR (Research Organization Registry) ID. The ROR-ID record further contains other persistent identifiers such as the organization’s GRID (Global Research Identifier), ISNI (International Standard Name Identifier), Crossref Funder ID, and Wikidata. Organizations are listed under the country in which they reside and appear in alphabetical order based on their name. Each organizational entry in the directory indicates that one or more persons have contact with GreyNet International and are currently included on its Distribution List. <http://www.greynet.org/internationaldirectory.html>

Video is the New Grey

GreyGuide Repository

**TIB AV-Portal provides open access to GreyNet’s Collection**

The German National Library of Science and Technology (TIB) aims to promote the use and distribution of its collections. In this context, TIB publishes the authoritative and time-based, automatically generated metadata of videos of the TIB AV-Portal as Linked Open Data. Only metadata and thumbnails of videos which allow usage of their respective metadata and thumbnails under the Creative Commons License CC0 1.0 Universal are made available. GreyNet’s current collection of conference presentations accounts for 79 video recordings. <https://av.tib.eu/publisher/GreyNet%20International>

**GreyGuide provides a unique testbed for grey literature**

GreyGuide is a fully open access compliant repository registered in OpenDOAR, Directory of Open Access Repositories. GreyGuide provides GreyNet’s community of practice with a unique testbed for research in the field of grey literature. The most recent project deals with digital persistent identifiers (PIDs) and the construction of the PID Graph, which allows for further research, education, and training in this field of information. PIDs and the PID Graph are shown to have real value in defining GreyNet’s position as a mature research organization by sustaining and leveraging its resources, by adhering to the FAIR data principles, and by signaling increased trust in grey literature beyond its own community of practice.

**Looking for nuclear information?**

**Want to preserve your nuclear information?**

**INIS CAN HELP!**

The International Nuclear Information System (INIS) was established in 1970 "to foster the exchange of scientific and technical information on peaceful uses of atomic energy".

132 countries and 14 international organizations contribute their national nuclear literature, making it the world's leading open access repository for nuclear science and technology literature.

Explore INIS and find a wealth of information on physics, radiation, climate change, health, etc. Preserve your nuclear information by storing it in our trusted repository.

## National Library of Technology

**National Library of Technology** (hereafter referred to as "NTK") is a central professional library open to public, which offers a unique collection of 250 thousand publications freely accessible in open circulation. Its holdings form the largest collection of Czech and foreign documents from technology and applied natural sciences as well as associated social sciences. It contains a total of 1,2 Mil. volumes of books, journals and newspapers, theses, reports, standards, and trade literature in both printed and electronic forms. Besides its own collection, parts of Central Library of the CTU in Prague and Central Library of the ICT holdings are accessible in NTK.

For detailed information on the National Library of Technology visit <http://www.techlib.cz/en/>

95 mm

IQ 166

As corresponds to its statutes, NTK manages – among others – the project of building the **National Repository of Grey Literature**. The project aims at gathering metadata and possibly full texts of grey documents in the fields of education, science and research. The NTK supports an education in the field of grey literature through annual seminars in the Czech Republic.

For more information on the National Repository of Grey Literature visit our project Web site <http://nrgl.techlib.cz/> and for a search <http://www.nusl.cz/>
