

GL2021 Opening Presentations

Dr. Donatella Castelli

Opening Address

Dr. Gregory J. Gordon

Keynote Address

Donatella Castelli is Head of InfraScience, Infrastructures for Science Laboratory within the Institute of Information Science and Technologies "Alessandro Faedo" - ISTI, an Institute of the National Research Council of Italy, CNR. She has been the principal investigator of several European and International funded projects on digital libraries and data e-Infrastructures, acquiring considerable experience in these domains. In particular, she has been the Technical Director of the sequence of projects that have contributed to the building of OpenAIRE, the Open Access Infrastructure for Research in Europe. She is currently the Italian member of the Commission Board of National Reference Point for Scientific Information and the CNR representative in the EOSC Association. She is also the scientific director of the D4Science data infrastructure. Her scientific interests are centered on data modeling, data interoperability, and data infrastructures.

Gregory J. Gordon holds dual roles for Elsevier; Managing Director of SSRN and Knowledge Lifecycle Management. SSRN is a leading Open Access multi-disciplinary online repository focused on providing Tomorrow's Research Today for early-stage scholarly research. In May 2016 SSRN joined Elsevier and has grown to 70 discipline-based research networks with close to 1,000,000 papers from more than 500,000 authors and users have downloaded over 150,000,000 papers to date. The Knowledge Lifecycle role looks at how content should flow between different product silos and bridge the gap between Elsevier and other organizations. Prior to helping Michael C. Jensen found SSRN in 1994, Gregg started his career at KPMG and worked at or founded entrepreneurial companies in technology and health care. Gregg regularly speaks around the world and writes about scholarly research and the changes needed to create innovative research faster. He co-authored Standards and Infrastructure for Innovation Data Exchange, Science, and The Question of Data Integrity in Article-Level Metrics, PLOS Biology, and gave a TEDx talk, Trust to the Power of One, in May 2019.
