SUMMER WORKSHOP SERIES ON GREY LITERATURE

GREYWORKS 2011

TEN STRATEGIES FOR GREY LITERATURE

KNAW Conference Centre
Amsterdam, Netherlands
Friday, September 9th 2011

GREYWORKS 2011 is the Third Workshop in the Summer Series focusing on ten strategies in grey literature carried out by researchers in Europe and North America. The works covered are by GreyNet Award Recipients and Authors in the book entitled 'Grey Literature in Library and Information Studies' published by De Gruyter |Saur, 2010. The strategies or inroads to grey literature deal with • specific subject areas and disciplines • various document types in electronic and print formats • open access and business models • supply-side publishing and demand-side access, as well as • quality assessment and curriculum development in this expanding field of information.

GREYWORKS 2011 is geared to information professionals and practitioners involved in the areas of policy development and management of grey literature collections, the production and publication of grey literature, and in research and education in library and information sciences. For newcomers to grey literature, GreyWorks 2011 will bring you up to speed with the state of the art in the field. For the vanguard in grey literature, this workshop will explore current research initiatives and challenge you to rethink existing strategies.

GREYWORKS 2011 is a mix of formal presentation, exercises, and informal discussion. During the afternoon wrap-up, participants will together draft a consensus document indicating future trends and directions for grey literature.

Online Registration, <http://www.greynet.org/greyworks2011.html>

GL13 Poster Session welcomes LIS Students

'Thirteenth International Conference on Grey Literature'

For the first time in the International Conference Series on Grey Literature, Posters will be presented on the first day. Also, for the first time a special Poster Session for LIS graduate students will take place alongside the regularly scheduled Sponsor Showcase and Poster Session. LIS posters are expected to deal with research topics in grey literature or successful course programs, where grey literature is taught at colleges of library and information science. Both Poster Sessions will be held in the Madison Building of the Library of Congress on Monday, December 5th 2011. Twenty-

five Sponsor/Delegate posters and ten LIS Graduate Student posters will be accommodated. For guidelines on posters or for other information about GL13, please contact conference@textrelease.com.

Launch OpenGrey Repository by INIST-CNRS

Nancy, France - 17 June 2011

<http://www.opengrey.eu/>

A screenshot of the OpenGrey website interface. The header features the 'Open Grey' logo and the tagline 'System for Information on Grey Literature in Europe'. Below the header is a navigation menu with links for 'Home', 'Search', 'Subjects', 'Partners', and 'Export'. A search bar is located below the navigation menu. The main content area is divided into three columns: 'SIGLE to OpenSIGLE', 'GreyNet Collections', and 'OpenGrey Launch'. Each column contains a list of features and updates. The footer includes a list of services such as 'Faceted search', 'WWS.org Portal', 'OpenDOAR', 'Google Scholar', and 'Creative Commons', along with logos for 'cnrs', 'inist', 'GreyNet', 'DANS', and 'Pratt'.

Grey Literature Author Survey 2011

Enhanced Publications Project (EPP)

First authors to one or more papers in the International Conference Series on Grey Literature have been invited to participate in an online survey. Their conference preprints and corresponding metadata records are currently available in the GreyNet Collection, which is comprehensive and online accessible via the newly launched OpenGrey Repository <http://www.opengrey.eu/search/request?q=greynet>. GreyNet seeks to further enrich this collection by linking existing metadata records and their accompanying full-text documents to underlying research data via the DANS Repository - Data Archiving and Networked Services. These authors, researchers, and stakeholders in GreyNet's Collection of Conference Papers, are requested to participate in a 10-question survey related to the Enhanced Publications Project (EPP). The results will be presented during the Thirteenth International Conference on Grey Literature entitled 'The Grey Circuit - From Social Networking to Wealth Creation' this December.

New Password Protected Access to LIS Serials

TextRelease now offers web-based access to serial publications on grey literature. Libraries and research centers with serial holdings in the field of library and information science, can now acquire password protected access to both current as well as back volumes. DE GRUYTER SAUR

Dominic J. Farace and Joachim Schöpfel (Eds.)

GREY LITERATURE IN LIBRARY AND INFORMATION STUDIES

2010, vi, 282 pages
Hardcover RRP € 89,95 / US\$ 126,00, ISBN 978-3-039-07938-0
eBook RRP € 89,95 / US\$ 126,00, ISBN 978-3-039-44149-3

The further rise of electronic publishing has come to change the scale and diversity of grey literature facing librarians and other information practitioners. This compiled work brings together research and authority over the past decade, dealing with both the supply and demand sides of grey literature. While this book is written with students and instructors of Colleges and Schools of Library and Information Science in mind, it likewise serves as a reader for information professionals working in any and all like knowledge-based communities.

CONTENTS

Introduction Grey Literature (Farace and Schöpfel)

Part I – Producing, Processing, and Distributing Grey Literature

Section One: Producing and Publishing Grey Literature

Chapter 1 Grey Publishing and the Information Market: A New Look at Value Chains and Business Models (Rosenthal)

Chapter 2 How to assure the Quality of Grey Literature: The Case of Evaluation Reports (Wohler)

About GreyNet Newsletter

This serial publication endeavors to keep information professionals abreast of developments in the field of grey literature. The bimonthly newsletter gives exposure to GreyNet's information resources and frontline activities with special emphasis on the International Conference Series on Grey Literature. The GreyNet Newsletter is licensed by EBSCO Publishing and can also be accessed via the Library, Information Science & Technology Abstracts (LISTA) full-text database. This serial publication is made possible through the support of GreyNet's Associate Members and Corporate Authors: FLICC-FEDLINK of the Library of Congress (USA), INIST-CNRS (France), New York Academy of Medicine (USA), EBSCO Publishing (USA), the National Technical Library (Czech Republic), and Japan Science and Technology Agency (JST).

Grey Literature is a field in library and information science that deals with the production, distribution, and access to multiple document types produced on all levels of government, academics, business, and organization in electronic and print formats not controlled by commercial publishing i.e. where publishing is not the primary activity of the producing body.
